

Student Health Requirements for 2022-2023 School Year

Pre-K, Kindergarten, Grades 6 and 9, and all NEW Students: All new students and returning students in PreK, Kindergarten, Grade 6 and Grade 9 MUST have an Illinois school physical and up-to-date immunizations. Until completed, students will not be able to attend school.

Kindergarten and Grades 6, 9 and 12: Proof of the following is required BEFORE a student may start school:

- Illinois Physical Exam – Pre-K, Kindergarten, 6th Grade and 9th Grade
- Diabetes screening
- Lead screening - Kindergarten only
- Vision exam by Optometrist – Kindergarten and students new to Illinois schools
- Up-to-date Immunizations
 - DTP
 - Tdap - 6th Grade
 - Polio
 - MMR
 - Varicella
 - Hepatitis B
 - Meningococcal – Grade 6 after age 11 **and** Grade 12 after age 16

Sports: All students participating in sports must have an athletic physical.

In August 2013, Public Act 098-0305 took effect. This act requires the IHSA to be given a CPR training video to post on its website so that staff at an IHSA-member school can watch it. The act also indicates school districts shall notify parents and encourage them to view the video, too. Since Danville School District 118 is a member school of the IHSA, we are posting the link to the following video for you to view.
