

Recent news announced Northeast will be on a Traditional Calendar for the 2024-2025 school year.

Below is a message from Dr. Geddis in response the Northeast Amended Calendar concerns: Thank you for sharing your concern with us. I appreciate that our staff and students have done a wonderful job working through the construction on the new addition. While it has been noisy and cumbersome, it was a different challenge than what is ahead of us. It is now time for us to begin work on the existing portion of the building where are students and staff are having classes and the students will not be able to be in the building while we do so. With the delays in receiving supplies, it has made it apparent that our contractors will not be able to complete the work needed, which would enable us to start Northeast on a balanced calendar.

I hope this helps to clear up any confusion and helps everyone to know this decision was not arbitrary, but rather one made to ensure the safety of our students and staff.

Sincerely,

Dr. G.
